

Local air-conditioner in compact design

REMKO RKL 300/360 *S-LINE*

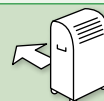

High-performance spot cooler

Working and living areas can be cooled in a targeted manner using the mobile air-conditions RKL 300 and RKL 360. The *S-LINE* series convinces with its modern optics in a trendy silver colour. The condenser, compressor and evaporator reside in a compact housing in the case of these small, flexible air-conditioners.

- High cooling capacity
- Ready for immediate operation
- Easy and efficient automatic dehumidification
- Practical electronic system for operation with digital display of temperature and operating states
- Air discharge with swing function
- Removable air filter
- Gradually adjustable air outlet direction
- Automatic condensate removal
- Compact design
- With infrared remote control in standard design
- Programmable 24-hour timer function

Technical data

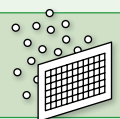

Unit type	RKL 300	RKL 360
Cooling capacity	kW 3.2	3.6
Energy efficiency class	A	A
Energy efficiency size EER	2.8	2.7
Energy consumption, hourly	kWh 1.13	1.33
Fan speeds	3	3
Max. air flow rate	m ³ /h 450	450
Max. dehumidification capacity	l/h 2.0	2.1
Usage area (room size) approx.	m ³ 90	100
Sound pressure level per speed setting ¹⁾	dB(A) 49/51/53	49/51/53
Max. sound power	dB(A) 61	61
Voltage supply	V/Ph/Hz 230/1~/50	230/1~/50
Power consumption	kW 1.13	1.33
Exhaust air hose, length	mm 1500	1500
Exhaust air hose Ø	mm 140	140
Dimensions - height/width/depth	mm 840/450/380	840/450/380
Weight	kg 35.0	35.0
Compact unit		
Ref. no., colour: white	1615300	1615360
Compact unit <i>S-LINE</i>		
Ref. no., colour: silver	1615301	1615361
¹⁾ Distance 1m in open air		
Accessories		
Wall lead-through for exhaust air hose		
Ref. no.	1613118	1613118

Flexible use

Infrared remote control

Integrated filter system
